Art Unit: 1774

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-11 and 13-22 rejected under 35 U.S.C. 102(e) as being anticipated by Kasahara (6,838,135). The reference discloses an ink jet recording paper comprising a support and a porous layer as the outermost surface of the ink receiving layer (col. 4, lines 18-23). The porous layer contains organic fine particles of a polymer comprising not less than 5% of a repeating unit represented by Formula 1, with examples provided at col. 5 to col. 8. Please see examples 24-31. Other repeating units are set forth in column 8 at lines 39-61 and include butyl-acrylate and others. The particles are prepared as an aqueous emulsion (col. 9, lines 64-67). The layer may also contain inorganic particles such as those instantly claimed (see col. 12, lines 6-17 and 49-58). Hardeners, including boric acid, may be present in the layers (see col. 14, lines 24-60).

2. Claim 35 is allowed.

3. Applicant's arguments with respect to claims 1-11 and 13-22 have been considered but are moot in view of the new ground(s) of rejection.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Pamela Schwartz whose telephone number is (571) 272-1528.
